## We'll talk about...

01

Importance of the internationalisation

02

Contribution to the internationalisation

03

Goals alignment

Description

04

Key messages

# Importance of the internationalisation

An important process that enables higher education institutions to prepare their students and staff for the global market.

Developing intercultural competencies, skill in effective communication, teamwork, solving complex problems.

# Importance of the internationalisation

- Education innovation
- Constant improvement of teaching skills
- Curriculum reforms

# Contribution to the internationalisation

- Thematic webinars:
  - Internationalisation
  - Sustainability
- Presenting examples of good practice; exchange of knowledge and experience; discussing challenges and possible solutions
- Curriculum reforms

# Internationalisation is reflected in the national Strategy for Education Development by 2030

## Planned initiatives from the new Action plan for the implementation of the Strategy for Educational Development

1. Promote **study programs that are accredited for execution in a foreign language** through:
  - Participation in regional, online and international education fairs
  - Development of promotional materials and publications
  - Distribution of materials through the network of diplomatic and consular missions, partner organizations that promote Serbia abroad, student and partner organizations abroad and European networks
  - Updating information on the StudyInSerbia.rs database about accredited institutions and study programs
  - Promoting new study programs aligned with qualification standards as well as documents aligned with Europe's policy
2. Develop **trainings for conducting teaching in English language** (through EMI project)
3. Increase number of the effective activities to **enhance the visibility of the domestic universities abroad**
4. Secure diverse financial resources **to incentivise mobility of students and teachers**

# Awardees in INTERNATIONALIZATION

# Students in Science and Practice for the 22nd Century

University of Split

“

SS&P22 is a continuation of the application TBI&HER, which secured the technical prerequisites for the implementation of an innovative educational program that builds on prior groundwork to integrate AI, modern technologies, and interdisciplinary, international collaboration into hands-on learning experiences, equipping students with the skills and mindset needed to tackle future scientific and professional challenges sustainably.

”
