award.profformance.eu

Learning Outcomes

- Identify and address specific **learner needs** in a digital context.
- Select and integrate appropriate **digital resources** into their curriculum.
- Facilitate the **development of digital skills** among their students.
- Design courses that prioritize **student-centred pedagogies**

Course Content: Digital Resources

A key area of knowledge presented in the Genially materials involves the strategic selection of **digital resources** to support **flexible learning**. This includes understanding how different tools can be mapped to specific pedagogical goals, such as collaborative learning or self-regulated learning.

Related Exercises

The Digitalization series utilizes interactive elements to reinforce learning:

- E.g. **Prepare time plan of the 4 steps of the design of digitally enhanced course**
- Connected various tools and activities

What You Can Achieve

Participants will walk away with a comprehensive "**Sum up Infographic**" and a **badge** acknowledging their proficiency in digital course design.

You will achieve the ability to transition from traditional teaching to a modern, **student-centred** digital approach that emphasizes **skills for the future.**

Why Take Part?

It is vital to take part in this course because digitalization is no longer optional; it is the foundation for **modern educators**. Engaging with these materials will help you increase your **research impact** and ensure you are equipped with the **AI tools and new pedagogies** needed to thrive in Higher Education.
