

Summer School: Zero Point - Ideal Place

- Encounters and Transformations in Art, Space and Society

2021. – 2025 -

Maja Rožman, Ida Loher, Marko Dajak
Academy of Fine Arts, University of Zagreb

Summer School: Zero Point - Ideal Place
- site - specific

Zagreb – Grožnjan (Istra) - Zagreb

Grožnjan - town rich in cultural and historical significance, recognized "town of artists".

Summer School integrates visual arts into the cultural fabric, enriching the Istrian region through site-specific artistic practices. Immerses students in an environment where urban and natural landscapes become a living laboratory for artistic and intellectual inquiry.

Summer School: Zero Point - Ideal Place - site - specific

Zagreb – Grožnjan (Istra) - Zagreb

Students and mentors collaborate to examine the socio-cultural dimensions of space, challenging notions of place and identity.

Summer School: Zero Point - Ideal Place - site – specific artistic research

Zagreb – Grožnjan (Istra) - Zagreb

The project is designed as an artistic research initiative that employs various methods to foster creativity, collaborative learning, active exploration of the environment, and the development of practices through cooperation between professors and students in joint research and learning model creation.

Summer School: Zero Point - Ideal Place - structure

- The intensive nine-day program begins with a series of smaller tasks that focus on exploring the space from multiple perspectives
- These smaller group tasks are expanded, refined, and directed toward the development of individual ideas through mentorship, collaborative learning, and research based on each student's interests.
- The research process is supported by lectures related to the theme of space and group excursions to surrounding areas to explore alternative perspectives on physical and mental space.
- The project culminates in an exhibition featuring works created in various media, where students not only present their physical works but also share their experiences through discussions with peers and professors.

Summer School: Zero Point - Ideal Place - structure/details/methods

Smaller tasks that focus on exploring the space from multiple perspectives:

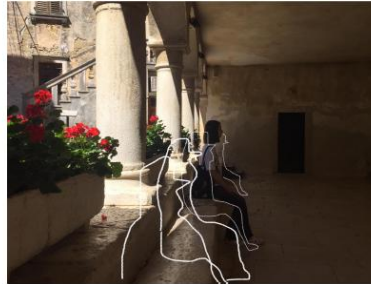

- engaging all the senses
- investigating historical facts
- introspective analysis of literary and art works
- communication with the local population

Summer School: Zero Point - Ideal Place - outcomes, adaptability and sustainability

- Students - tools, methods, and experiences that shape their further artistic work, diploma projects, and professional careers. The interdisciplinary approach equips them with skills to engage critically and creatively with contemporary challenges, fostering lifelong learning and adaptability.
- Teachers - platform for continuous improvement and innovation; use these insights to evolve their existing classes, design new programs, and expand the scope of fieldwork opportunities, ensuring the program's principles ripple throughout the institution.
- Academy - the Summer School has been recognized as extra quality during the Academy's reaccreditation process, marking it as a model of excellence and innovation in education.
