

Profformance+ Partner Meeting

16 January 2024

Alexander Kohler
BMBWF

Main activities and policy developments

- Further development of a **national higher education plan** and its translation to the various sectors of higher education – with **teaching and learning** being a priority area
- **Funding of public universities**, partly based on the number of ‚active‘ students:
 - Greater attention to **student progress** and student support
 - Identification of **sensitive areas** (orientation and entry phase, final study phase)
 - Setting action and monitoring of effects

Main activities and policy developments

- Promotion of **staff development** and **didactic competences**
 - Recognition of teaching performance in **academic progress**
 - Valuation of **teacher's workload**
 - Cooperation and recognition of **didactic training**
- Communicating the **value of democracy** and **science**
 - Integration in curricula
 - National award with a thematic focus
