TEACHING AND LEARNING – CURRENT STATE IN CZECH REPUBLIC

Support the building of infrastructure for interactive methods of education and integration of students

- implementing the latest educational trends with a wide range of services to ensure the success of all students
- In 2022 and 2023 new conferences, forums and projects for innovative teaching and learning:
 - *Days of educational activities (specific block on both years)*
 - *Conference on teaching quality and pedagogical competences*

2023 – SPECIFIC COMMON HEIs

PROJECTS giving universities the space to be more innovative and flexible in the design of the teaching process

- strengthening the quality of learning outcomes and the acquisition of new skills through new forms of mobility
- joint university projects - developing internal evaluation boards and building more effective methods of providing feedback
- developing internal evaluation boards and building more effective methods of providing feedback

Sustainability and teaching and learning

- Green Deal → new study programmes for sustainable development and economy
 - development of "green" courses for expanding competences
 - an active university approach to sustainable development

Strategic and legislative measures

- the newly prepared law on quality assurance in higher education
- updating of Strategic plan of the Ministry for Higher Education (strategic development + social dimension area)
- the newly prepared law on quality assurance in higher education
