

Profformance+ Final Conference 16 October 2025

Alexander Kohler
BMFWF

Digitalisation in Higher Education Teaching - Priorities

Transformation of teaching and learning: focus on quality, flexibility, and inclusiveness

Development of digital and pedagogical competences: enhancement of teaching staff capabilities

Establishment of support structures and infrastructure: provision of services and technical resources

Promotion of Open Educational Resources and open licensing: sharing and reusability of materials

Implementation of digital onboarding and bridging offers: facilitation of student entry and preparation

Integration into governance and strategy: alignment with institutional planning and quality management

Internationalisation in Higher Education Teaching - Priorities

Comprehensive internationalisation culture: focus on interconnected, innovative, and culturally diverse learning environments

Mobility promotion for all university stakeholders: inclusion of students, faculty, and non-academic staff

Development of international and intercultural competences: enhancement of skills for global collaboration

Implementation of innovative digital and physical mobility formats: virtual, blended, and physical exchange opportunities

Integration of internationalisation into curricula and institutional strategies: alignment with teaching, governance, and quality management

Inclusion in Higher Education Teaching - Priorities

Quality and accessibility of information: reliable, heterogeneity-sensitive study guidance

Outreach activities and diversity-sensitive counselling: targeted support for underrepresented groups

Recognition and validation of non-formal and informal competences: integration and labour-market relevance of prior learning

Facilitation of study entry: bridging courses, mentoring, social-inclusive integration

Study organisation and teaching quality: flexible curricula, student-centred learning, online/blended formats

Compatibility with other life areas: part-time, work- and family-friendly formats, accessible learning spaces

Sustainability in Higher Education Teaching - Priorities

Integration of sustainability in governance: anchoring in strategy, teaching, and research

Institutional sustainability strategies: dedicated structures and coordination units

Education for sustainable development (ESD): competence building and curricular integration

University networks and alliances: cooperation via national sustainability initiatives

Climate and resource responsibility: climate neutrality, mobility, and campus management

Interdisciplinary collaboration: joint initiatives addressing SDGs
